

Susan Pinson

Oklahoma City, OK

Oklahoma teachers embed digital learning within curriculum in order to meet academic standards. With over 500 school districts in Oklahoma, many in rural areas, it is highly important that all students have access to high-speed broadband to maximize learning with 21st century skills. I urge you to raise the E-Rate funding level to at least \$5 billion per year in order for all schools to be able to provide access to high-speed broadband, the lifeline to learning.
